

reflecta LED Video Light DR 10

The new **LED Video Light reflecta DR 10** was developed especially to use it for reports and interviews. It can be easily mounted onto professional video cameras such as Sony™, Panasonic™ or JVC™ or can be mounted on each DSLR Cameras. The reflecta **DR 10** is fitted with **5 Power LEDs** (equivalent to 10 Watt).

In order to be prepared for different lighting conditions, the DR 10 is equipped with a soft filter and a condenser lens. The light beam can be regulated by the two integrated barn doors. The power supply of the DR 10 is effected by a Li-Ion battery (Sony NP-F_{xxx}) or by the Power-Adapter-Cable via the integrated battery of the camera. The **DR 10** will be delivered with carrying bag and carrying handle.

Productinformation

- Number of LED: 5 Power LEDs
- Lux in 1m Distance: 900 Lux
- Power Consumption: 10 W
- Colour Temperature max.: 5.500K
- Colour Temperature min.: 3.200K
- Angle of Illumination: 65°
- 2 Brightness Level (5W / 10W)
- Power Source with Li-Ion Battery (Sony NP-F_{xxx})
- Power Source DC 6~17V
- Max. Operating time NP-F970 Battery: 360min
- Max. Operating Time NP-F770 Battery: 200min

Technical Details

- Dimensions: approx. 140 (H) x 110 (W) x 100 (D) mm
- Weight: approx. 315g (without battery)
- Power Consumption: by Li-Ion Battery Sony NP-F970/770 or by Power-Adapter-Cable (via Camera Battery)

Delivery Content

- DR 10 with integrated Amberfilter and Condenser lens, 2 integrated Barn Doors, Power-Adapter-Cable, Carrying Bag with carrying handle, manual

Art.No. 20377
